

COURSE SYLLABUS

Psychology 594

Multivariate Analysis in Psychology and Education

Fall, 2011

Instructor:

Lawrence Hubert

433 Psychology Building

Teaching Assistant:

Ehsan Bokhari

418 Psychology Building

Office Hours: Wednesday 1–3 TBA

Lectures: Wednesday and Friday 10-12

31 Psychology Building

Tentative Topic Sequence:

<i>topic</i>	<i>reading</i>
I. Introduction/Matrix Algebra	Matrix Algebra Notes
II. Matlab Introduction	Getting Started Guide Slide Handouts
III. Random Vectors/Matrices, Linear Combinations, Random Sampling	Handout Notes
IV. Multivariate Normal Distributions	Handout Notes
V. Principal Components	Handout Notes
VI. Factor Analysis	Handout Notes
VI. Canonical Correlation	Handout Notes
VI. Discrimination/Classification	Handout Notes
VII. Clustering/Scaling Proximity Representation	My Matlab Toolboxes
Multivariate Methods with R (if time permits)	Slide Handouts
